

ICE® Hydraulic Torque Wrench

The ICE is the culmination of 50 years of research and development dedicated to industrial bolting. Featuring patented industry-first innovations, the ICE is the most advanced hydraulic bolting system available today.

AUTO RELEASE SYSTEM

The ICE can automatically release itself when locked on a bolt. This reduces unplanned interruptions in the bolting process.

TOTAL-FREEDOM UNISWIVEL

The ICE is the world's only hydraulic bolting system that allows for fast and flexible positioning without the constraints normally associated with hydraulic hoses.

MULTI-USE SYSTEM

The ICE works with all HYTORC bolting systems including fastening with the HYTORC Nut (1) and the revolutionary new HYTORC Washer (2).
